

Pejman Mowlae

Priv.- Doz. (Adjunct. Prof.)
Signal Processing & Speech Comm. Lab
Graz University of Technology, Austria

Phone: +43 (316) 873 - 4433
Email: pejman.mowlae@tugraz.at

Research Interests

- **Speech signal processing:** noise reduction, source separation, automatic speech recognition, beamforming.
- **Digital signal processing in audiology:** audiology and assistive listening technology (hearing aid)
- **Statistical signal processing:** detection and estimation of signal parameters in noise
- **Machine learning:** applications in human-machine interaction, machine listening and audio classification.
- **Forensic:** speaker recognition, anti-spoofing
- **Communication:** GSM data transmission, digital video broadcasting (DVB).

Education

Dr. Habil, Privatdozent, TU Graz, Austria. 2012-2017

- **Habilitation, Venia Docendi** for Speech Signal Processing, TU Graz
- **Thesis:** *Phase-Aware Speech Signal Processing in Speech*

PhD in Signal Processing, Aalborg University, Aalborg, Denmark. 2007-2010

- **Funding programme:** Marie Curie EST-SIGNAL Fellowship
- **Supervisors:** Prof. Søren Holdt Jensen, Prof. Mads Græsboll Christensen
- **Thesis:** *New Strategies for Single-channel Speech Separation*

M.Sc. in Communication Systems, Iran University of Science and Technology, Tehran, Iran. 2004-2006

- **Funding programme:** Iran Telecommunication Research Centre (ITRC)
- **Thesis:** *Microphone Arrays Noise reduction and DOA estimation*
- **Supervisor:** Prof. Mohammad Hossein Kahaei

B.Sc. in Electrical Engineering, Guilan University, Rasht, Iran. 2000-2004

- **Thesis:** *Adaptive Filters and their application in echo cancellation*
- **Supervisor:** Dr. Bahman Zanj

Previous work experience

Assistant Professor, TU Graz, Austria. 2012-2017

Marie Curie Post-doc fellow, Ruhr Universität Bochum, Germany. 2011-2012
for Digital Signal Processing in Audiology (AUDIS)

Research and development for signal processing algorithms, Digital Video Broadcasting, Basamad Negar Ltd., Tehran, Iran. 2005-2006

Research and development for signal processing algorithms, Telecommunication and Electronic Research Center Ltd., Tehran, Iran. 2006-2007

Computer Skills

Languages: C, C++, Java, Python, machine learning and deep learning toolboxes and libraries

Data analysis tools: Matlab, R, LabVIEW

Others: HTML, visual basic (Intermediate), LaTeX, Microsoft Office

Operating System: Linux, Windows

Scientific and Societal Impact of Research

In total, I have 1 book, 1 patent, 15 journals and 50 conference papers (ORCID: 0000-0003-0136-8002).

Citations: 902 citations and h-index = 18 and i10-index = 33 (last accessed [Google-scholar](#) on 22.09.2017).

Open-Source Projects: Phase-aware processing Toolbox ([PhaseLab](#))

Linguistic Skills

- Persian (maternal), English (fluent), German (working proficiency B2 module), Danish (basic)

Research funding, Group Leadership and Supervision

- 12.2014-06.2015: Initial Funding, employed three master students, project entitled “Phase-based Voice Communication”, Austria, 7000 € (status: completed).
- 12.2015-01.2018: Team leader and principal investigator (PI) for FWF standalone research project from Austrian research fund (FWF) for 10.2015 - 10.2018, assigned to PI.

Awards, Prizes and Honors

- Ranked 1st distinction in B.Sc. Program in Electrical Engineering Guilan University, Iran 2000-2004.
- Young research award for M.Sc. Program at Iran University of Science and Tech., Iran 2004-2006.
- Ranked 1st distinction in M.Sc. Program in Communication Engineering at Iran University Tech., 2004-2006.
- Third Place National Award in Master Theses in Electrical Engineering, 2006.
- EU Marie-Curie doctoral scholarship at Aalborg University 2009-2010.
- EU Marie-Curie postdoctoral scholarship for postdoctoral fellowship 2011-2012.
- Innovation Award at TU Graz 2015 in speech signal processing (awarded 06.2017)

Merits in Teaching and Pedagogical Competence

- Circuit Theory I and II (BSc course/three semesters)
- Digital Signal Processing (BSc course/four semesters)
- Speech Signal Processing (Graduate course/five semesters)
- Adaptive Filter Theory (Graduate course/four semesters)
- Digital Signal Processing Lab (BSc course/three semesters)
- Speech Processing Lab (Graduate course/five semesters)
- Advanced seminars in signal processing (Graduate course/two semesters)
- Master Seminar in sound engineering (Graduate course/five semesters)
