

The following instructions describe how to download, install and register Lawo's mxGUI software (Release Version 4-10-0-0). To proceed, you will need the following:

- mxGUI certificate number received via email or letter upon purchase of mxGUI.
- Lawo user account available at <u>www.lawo.de</u> (follow the links to "Login").
- A computer with an internet connection running either Windows XP, Windows Vista, Windows 7 or Mac OSX (see system requirements below):

Minimum System Requirements (Windows PC) 1.5GHz processor RAM 1.5GB (XP) or RAM 2GB (Vista and 7) 200MB hard disk space OS: Windows XP, Windows Vista (32bit), Windows 7 (32bit and 64bit) Minimum System Requirements (MAC) RAM 2GB 200MB hard disk space OSX Snow Leopard with X11 installed (on the installation CD of OSX, under "Optional Installs", "Applications->Utility->X11" must be present).

Step 1: Download the software:

The latest mxGUI release is available to download from the Lawo website:

- 1. Open an internet browser connection to the Lawo Home Page at www.lawo.de
- 2. Click on "Login" (top right) and enter your username and password.

If you do not already have an account, then follow the "register on this page" link to register.

- 3. Once login is successful, click on "Download-Center".
- 4. Then click on **mxGUI** and scroll down to the **Software** area.
- 5. Select the latest mxGUI version (e.g. mxGUI 4-10-0-0.zip) and save the file onto your desktop.
- 6. Extract the zipped files.

Note that both Windows (mxGUI_setup.exe) and MAC files (mxGUI_OSX_Installer.zip) are located within the **Software** folder.

Step 2: Install and Register the software:

- 1. Double-click on the **mxGUI_setup.exe** (Windows) or **mxGUI.mpkg** (MAC) to start the installation and follow the on-screen instructions.
- 2. During installation (Windows) and after installation when running mxGUI for the first time (MAC), you will be asked for your **Registration Information**.

To access this information, you must validate your software online as follows:

- 3. Open an internet browser connection to the Lawo Home Page at <u>www.lawo.de</u>
- 4. Click on "Service & Support" and Software Registration" (on the left).
- 5. In the first field, enter your certificate number. se

This is the number received via email or letter when you purchased mxGUI.

6. The second field displays your email address. A copy of the software license will be sent to this address once validation is successful.

mxGUI Quick Start Guide

NOTE: The **Name** and **Hardware Key** fields are only required for Windows installations, so MAC users can skip to step 9.

- 7. In the third field, enter a name. This can be any name. A simple, short name is best.
- 8. In the fourth field, enter your hardware key. This was generated automatically by the mxGUI installer during step 2 and appears in a small window named Lawo mxGUI Hardware-ID. Note that the Hardware-**ID** window can be obscured by the **Registration Information**. So, minimise any other open windows to reveal it.
